COVID-19 TRAINING TOOLKIT FOR EXTENSION

The Southeastern Coastal Center for Agricultural Health and Safety (SCCAHS) curated the following resources related to COVID-19. As federal and state officials continue to monitor the COVID-19 pandemic, it is important to share consistent and accurate information. Curated resources include social media messages, images, videos, and infographics that you can share on your own social media platforms and webpages.

SCCAHS explores and addresses the occupational safety and health needs of people working in agriculture, fishing, and forestry in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, the U.S. Virgin Islands, and Puerto Rico.

IN THIS TOOLKIT

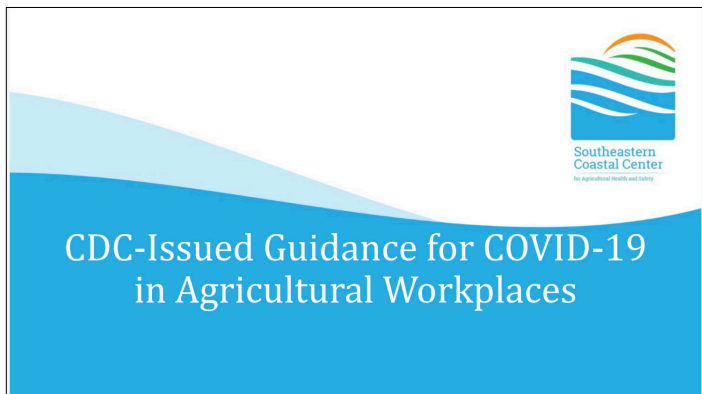

COVID-19 poses significant threats to the agricultural and natural resources sectors and the people employed by these sectors. Learn about resources to aid in your communication about COVID-19 in this guide.

This document and the materials under the Southeastern Coastal Center for Agricultural Health and Safety's Extension COVID-19 Training Toolkit web link (<http://www.sccaahs.org/index.php/covid-19/>) are provided to help you deliver a COVID-19 training program to agriculture, forestry, and fishery (AFF) supervisors and workers. We recommend that you visit the Southeastern Coastal Center for Agricultural Health and Safety's COVID-19 web page regularly for updated information on COVID-19 communication and educational materials and resources related to AFF workers. Please SCROLL DOWN to the bottom of the web page to see all of the print (PDF) materials and audio/visual resources, as well as links to the Centers for Disease Control and Prevention (CDC), regional departments of health and departments of agriculture, agricultural health and safety organizations, and farmworker advocacy organizations. The Extension COVID-19 Training Toolkit is comprised of the following: PowerPoint slides, PowerPoint presentation as videos, short CDC guideline videos, and print materials.

POWERPOINT SLIDES

PowerPoint slides: These slides are provided in both English and Spanish. In the NOTES view, you will find a script to go along with each slide, also provided in English and Spanish. The entire presentation, as scripted, will take approximately 30-40 minutes. These slides were developed cooperatively by the agriculture health and safety centers funded by the National Institute for Occupational Safety and Health (NIOSH), which is a part of the CDC, so these slides have been approved by CDC/NIOSH. This particular slide set has been adapted to include photos more in keeping with the Southeast's diverse workforce. Please note that when you click on the link, you still must DOWNLOAD the PowerPoint slides. The PowerPoint file is approximately 67 MB.

[English](#)
[Spanish](#)

POWERPOINT PRESENTATION AS VIDEOS

PowerPoint presentation as videos: In addition to the actual PowerPoint slides, the slides have been developed into narrated YouTube videos that can be shared online or shown at agriculture production locations.

[English \(30 minutes\)](#)
[Spanish \(33 minutes\)](#)

SHORT CDC GUIDELINE VIDEOS

Short CDC guideline videos: Two sets of videos – in English and Spanish – are provided to show general CDC guidelines, social distancing best practices as well as use of face coverings. The videos are less than two minutes each and could be integrated into the training presentation or provided to clientele afterward as a follow-up.

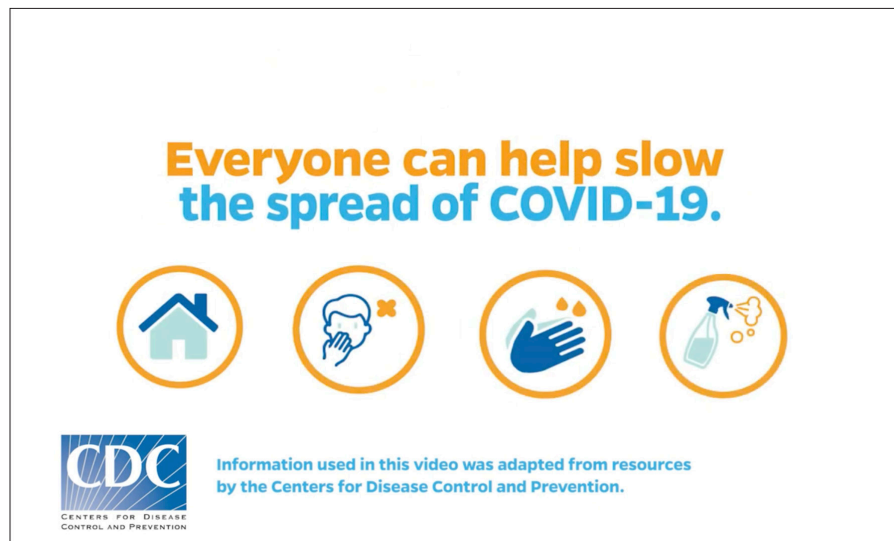

[CDC Guidelines \(English\)](#)

[Social Distancing \(English\)](#)

[Social Distancing \(Spanish\)](#)

[Face Coverings \(English\)](#)

[Face Coverings \(Spanish\)](#)

PRINT MATERIALS

Print materials: We recommend that you use these CDC print materials as part of the presentation. However, any of the CDC guideline materials that you see on the SCCAHS COVID-19 web page would be appropriate, based on the needs of your specific audience. Again, SCROLL down the entire web page to view all the links to the print materials. The Landscape/ Grower Signage link goes to a University of Florida web page featuring downloadable signage on steps to limit the spread of COVID-19 and can be posted at the workplace.

Recommended print materials:

[Protecting Agricultural Workers Infographic \(English\)](#)

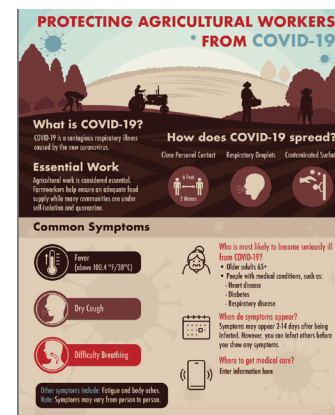

[Protecting Agricultural Workers Infographic \(Spanish\)](#)

[Agricultural Operation Checklist \(English\)](#)

[Stop the Spread of Germs \(English\)](#)

[Stop the Spread of Germs \(Spanish\)](#)

[UF/IFAS Signage - Webpage | English | Spanish | Haitian Creole](#)
